War Song (Ain't No Soldiers) Â© 2009 Frederick
Roussel

You can't kill a dead person baby
You can't kill a dead person now
You can't kill what never stands still
Pour this in your heart and spill
History's the future now so nothin can be killed

There ain't no soldiers any more
There's no truth in this war
This is a story gonna try to end it well
So help me baby, caus I can't do this by myself

Happiness for a soldier havin fun
Is tellin stories bout how he never died
If a soldier never had a gun
You know that he'd never even tried

You can't kill a dead person baby
You can't kill a dead person now
You can't kill what never stands still
Pour this in your heart and spill
History's the future now so nothin can be killed

There ain't no soldiers any more
There's no truth in this war
This is a story gonna try to end it well
So help me baby, caus I can't do this by myself

Standin in the boardroom where the overheads are
high
These are your soldiers got to look them in the eye
This is a price war baby fightin on the ground
How many lives are you gonna waste before the
price...comes
Down
