The news has got me paranoid  
Papers and the news reports  
Casualties of every war  
The anchor people keeping score

The weapons now are chemicals  
In water and in air above  
In circulating envelopes  
In powder through the postal routes

The threat of a disease is here  
We nipped it once without a cure  
It took forever 'til it stopped  
Through mandatory needle shots

They gave us all a little dose  
To teach our bodies how to cope  
Finally when we had it licked  
Some terrorists are back with it

The propaganda's working now  
I'm falling for it hook and reel  
I'm stocking up on medicine  
Buying tape to seal us off in paranoia

Paranoia, paranoia, paranoia  
Paranoia, paranoia, paranoia  
Paranoia, paranoia, paranoia  
Paranoia, paranoia

Paranoia attack, paranoia war  
Paranoia sinks like a bomb  
Paranoia threat, paranoia affects  
Paranoia drops bombs, bombs

Paranoia
