All this time alone,  
I could not go home,  
Artificial friend,  
You reap what you sew,

You said,  
It was the middle of something else,  
I love,  
That you lose it all,

Cause' you are the one that made me feel better,  
And this is just fucked up either way,  
I don't understand what you say,

All this time you've known,  
it's condescending tone,  
That's what tears are, man,  
They make you feel everything,

You said,  
It was a little of something else,  
I love,  
that you lose it all,

Cause you are the one that made me feel better,  
And this is just fucked up either way,  
I don't understand what you say,

(guitar finish)
