When you feel like, you know what I'm sayin, like,  
When you feel like, there's nobody you can turn too,  
Or when its, S&\$# start getting real out here.  
I know how it is man, we can identify with that S&\$# for  
real.  
So I want you to know it's going to be ok, you know what  
I mean,  
It going to be alright, for real.

As time passes, I'm just keeping the faith,  
Composing my thoughts and rearranging my plates.  
People ask, I'm just telling them straight,  
My girl was throwing up this morning; I'm praying it was  
something she ate.  
Feeling pains in my torso now, I scream F\$#@ the  
world,  
But Mother Nature is taking over now, trying to regulate  
our stress and pain,  
And also now, this life hurts a little more, so now,  
But I'm still holding on ya'll.  
(Chorus)  
The pain that you know, evil you see,  
I got a feeling that were gonna be alright, everything's  
going to be alright.

I can feel the sun shinin, no stress, I'm so blessed,  
No regrets, I am my past and my path has guided me,  
inside of me,  
Placed me in spots where tracks be, and cats be so  
hungry, its so funny.  
I want to race against millions, twenty-three years ago,  
The buildings flow over peaks, made from a cat over  
seas,  
Exposed to the league, its so peace and so deep,  
So who am I to question the signs of crafts ways, of  
these last days,  
It just happens that way, divine designs of life,  
Balance that way, the trend surfaced and it all blends  
perfect.  
(Chorus)  
The pain that you know, evil you see,

I got a feeling that were gonna be allright, everything's  
going to be allright.  
The pain that you know, evil you see,  
I got a feeling that were gonna be allright, everything's  
going to be allright.

Baby, no you don't have to worry,  
Baby, no you don't have to worry about me.  
Baby, no you don't have to worry,  
Baby, no you don't have to worry about me, me.  
Baby no you don't have to worry.  
The pain that you know, evil you see,  
I got a feeling that were gonna be allright, everything's  
going to be allright.
