

Forgotten Hero "Dear Friend"

Visit "[Dear Friend](#)" on MotoLyrics.com

Wake up,
And take a look around.
The people that love you,
Don't hold you down.
The only,
Care about you.
They only want,
What's best for you.

So get your act together.
Let me show you something better.
Don't choose that way,
Those friends aren't there to stay.
Why don't you try listening.
To what someone's whispering.
I promise they love you,
No matter what you will go through.

I'm trying,
To help you really see.
I want you to be the best,
That you can be.
You just need,
To stop messing around.
You don't want to be lost,
When all hell goes down.
