In the dark we have no bodies
we have no worries
we have no limbs
Faceless secretes, that we embody
no need to worry about spilled milk

Oh come away now
Lets get you save now.
Lets get you save now
Oh come away.

In the dark callous footsteps
Tread thin waters sea to land
Empty head known to progression
Or the suggestion of an outstretched hand

Oh come away now
Lets get you save now.
Lets get you save now, oh come away.

Oh come away now
Lets get you save now.
Lets get you save now, oh come away.
