

Fear The Clown "Oracle"

Visit "[Oracle](#)" on MotoLyrics.com

You went off again today
To see if I still care
Living your life obsolete
Wondering if I'll appear
I've been laughing at myself
Watching avoiding all the pain
It seems so long since I have left
I lay myself down in your hand
You still have the bloodstain
That I left upon you
I try to show some remorse
To you not you
Take my hand and come with me
Come on come on
I feel like I have been blind
The dust burns my eyes
I look up into the sky
He's waiting there for me
You then look into the sky
He's standing there for you
We have all been set free
From him by him
Heaven is the place to be
It's my home
FATHER!!!
God has sent me
To be free for me
Without him I would be lost and empty
You claim that there is time
For you to recognize
There's not that time to itimize
