(6:28)

It's logical, to do what you think

It's logical, when you're thirsty take a drink

To the army, if ya wanna be strong

To the orient, if ya wanna hit a gong

You wanna have, what you've wanted

No house on earth, that is haunted

CHORUS

Exploding dynamite, doesn't matter if you're dead

Exploding dynamite, blow off your head

Little bitty sticks, will take a hit

Any one ya want, just take your pick

Don't be dumb, um um um um

You're really dumb, If you're I.Q.'s 51

If your name is Ted, then your name is Ted

If you're tired, then go to bed

CHORUS x3
