Verse 1 I heard you cry out, "Help me, kill me, save me
Someone do something." But I couldn't bring myself to
pull you out of this

In the end

Pre-chorus

I'll try to wake up

But in my head all the hurt you said

Is on fire wait 'til it's over

And I'll

Chorus

Find my way

Out of this mess I've made

To save you

Realize all you're trying

To hide from

Will come

Verse 2

Buried inside are all the chances

That you have wasted

You're desperately clinging to the remnants of

What could have been

Pre-chorus

Chorus 2x

Outro

In the end, I'll leave you

Screaming aloud

I'll walk away

And not make a sound

In the end 3x
