

Fallon & Felisha "Infected"

Visit "[Infected](#)" on MotoLyrics.com

In and out of relationships,
Finding someone to share life with.
Iâ€™m unwilling and I wonâ€™t carry the load.
Fairytale and the fantasies.
There is no prince to come in to save me.
With the book closed.
I still end up alone.
Until you came along.

I never wanted to fall in love
Just for my own protection.
I wouldnâ€™t let my heart accept it.
The way he touched me.
I got infected.

I made a promise to never fall
And so far I thought I kept it.
But my heart wonâ€™t let me reject it.
Cause when he kissed me I got infected.
Iâ€™m infected with your love.

Now Iâ€™m right here.
Watching you sleep.
Never thought that this would be me.
My heartâ€™s been invaded.
And now Iâ€™m in your control.
And when you hold tight.
It just feels so right.
And I get butterflies.
When I meet your eyes.
Tell me how did you get by.
When I let no one inside.
And it caught me by surprise.
When you came in and infected me.

I never wanted to fall in love
Just for my own protection.
I wouldnâ€™t let my heart accept it.
The way he touched me.
I got infected.

I made a promise to never fall

And so far I thought I kept it.
But my heart won't let me reject it.
Cause when he kissed me I got infected.
I'm infected with your love.

The symptoms are your body starts to weaken.
The side effects are you may fall way too deep in.
Then you deny that what you're feeling is the feeling.
You try to fight it but you gonna have to give in.
Whatever you had, you gave it to me.
Was immune to love, but you infected me.
Like the ones who believe.
Now I should be quarantined.
I was fine being blind.
But you made me see.

I never wanted to fall in love
Just for my own protection.
I wouldn't let my heart accept it.
The way he touched me.
I got infected.

I made a promise to never fall
And so far I thought I kept it.
But my heart won't let me reject it.
Cause when he kissed me I got infected.
I'm infected with your love.
