"In Reverse"

If there's one thing, if there's one thing that I know
New questions follow questions, that I know.
A solution is a disguise to a quandary and a key
Is a puzzle made of metal to the lock that I made for
me
Ooh for the longest time I thought I would find a way
Through the binary reflection of the sunshine through
the maze
Sha la la la la la its a crazy world
Its just a chemical reaction
Like a whirlwind in reverse.
If there's one thing that I'm scared of its the truth.
If I knew it, could I use it,

Ih if I lacked the proof
Cos a good time is a hard time in a short time
And the seed to a puzzle made of metal
For the chains that I made for me
Oooh for the longest time I saw a bridge to the great
divide
But the space time complications really complicate my
mind,
Sha la la la la la la Its a crazy world
Its just a chemical reaction like a whirlwind in reverse
Sha la la la la la its a crazy world,
like a whirlpool in reverse, in reverse.
Its in reverse, its in reverse.
