Is there any way to describe you? The word perfect
never seemed so small.
Until the day I met you.

And honestly your honesty. Is the one thing that scared
me.
And to this day, I can't describe. The things I felt I was
so alive.
But now you're gone and replaced by this song

There's no single word to describe this. The world has
never seemed so small
Until the night I lost you

And honestly your honesty. Is the one thing that scared
me.
And to this day, I can't describe. The things I felt I was
so alive.
But now you're gone and replaced by this song

Your honesty
Was honestly the one thing that gave me
A second chance to make amends
To find out
Who were my friends

Your honesty is honestly the one thing that saved me
And on this day, I can't describe.
How I felt, but I'm alright
But now you're gone
And replaced by someone
