[Verse 1]

Remember Me, Remember Me when you are down
Float me on air and lift me up from off the ground
Oh baby, I feel lazy
So lie here in my arms tonight
Would you deny, a poor mans cry, a poor mans cry

[Chorus]

Just when I'm finding it hard to breath you lift the
weight inside of me
Oh baby I see the light thats burning bright and we're
the stars
Oh Anne, you save me from the world
Oh Anne, you save me from the world

[Verse 2]

My heads alive, my heads alive, can't get no peace
Your my escape from this heartache I need relief
Oh baby, This worlds crazy so lie here in my arms
tonight
You can't deny, a poor mans cry, a poor mans cry

[Chorus]

Just when I'm finding it hard to breath, you lift the
weight inside of me
Oh baby I see the light, thats burning bright, and we're
the stars
Oh Anne you save me from the world
Oh Anne you save me from the world

(break)

Stars please shine for me tonight tonight
Stars please shine for me tonight tonight

[Chorus]

Just when I'm finding it hard to breath, you lift the
weight inside of me
Oh baby I see the light, thats burning bright, and we're
the stars
Just when I'm finding it hard to breath, you lift the
weight inside of me
Oh baby I see the light, thats burning bright, and we're

the stars

Oh Anne you save me from the world

Oh Anne you save me from the world
