"Lay Me Down"

Visit "[Lay Me Down](#)" on MotoLyrics.com

Lay me down
Lay me down
Lay me down
Lay me down
Close your eyes, close your eyes
Side by side we close our eyes
When I'm tired you lift me baby
In the morning time when the light gets dark
It's hard to lift my head up
Baby you're the light that's shining down
I can see your stars appear
Lay with me and I won't sleep
I need no words, so lay with me
Take my soul, let it grow
let it grow, take my soul
When I'm tired you lift me baby
in the morning time when the lights get dark
It's hard to lift my head up
Baby you're the light that's shining down
I can see your stars...
Lay your love, lay your love in my hand
I'll take you home
Lay your love, lay your love in my hand
I'll take you home
Lay your love, lay your love in my hand
I'll take you home
