

Guess Who "Arrivederci Girl"

Visit "[Arrivederci Girl](#)" on MotoLyrics.com

You know that you're steppin' on me, draggin' my bone
to bed

You know that you're real polite, kickin' me right in my
head

But I won't move, so leave me alone, distress me
Give somebody else your own kind of lovin', you're
kind of movin'

You're kinda thinkin' about the wrong things too
Goodbye my baby once, arrivederci, girl to you

You trying to distress me, leave me alone, impress me
And give somebody else your own kinda lovin', you're
kinda movin' baby

You're kind of thinkin' about the wrong things too
Goodbye my baby once, arrivederci, girl to you

You gotta shake it, leave it woman once
Arrivederci, girl to you
