Lookin? through a pair of sad eyes
Never feelin? glad eyes
Wantin? things they never had eyes
In the middle of up stream

Want the pictures in the green frame
Reputation with a clean name
Sing a tune without the dream fame
For a hundred maybe two

So smoke big factory
Smoke big factory

Now they're blowin? up the islands
And they're shootin? in the highlands
Soon I know they'll be on my lands
?Tis a bitter tale for true

So smoke big factory
Smoke big factory

Smoke big factory
Smoke big factory
