Hey, all you mothers  
Don't be putting us down  
You'd better run and tell the others

We'll be coming around your house tonight  
So get the best things polished up  
And make them shine

We're coming to dine  
You'd better believe it  
We're coming to dine

Polished up all our leathers  
Even combed our hair  
Thought about conversation

But just wait till we get there tonight  
We'll be such fascinating guests  
Food and wine

We're coming to dine  
Whether you like it or not  
We're coming to dine

Hey, all you mothers  
Don't be putting us down  
You'd better run and tell the others

We'll be coming around your house tonight  
So get the best things polished up  
And make them shine

We're coming to dine  
You'd better believe it  
We're coming to dine

Whether you like it or not  
We're coming to dine  
Oh yeah, oh yeah, we're coming to dine
