

Gargoyle "Blind Faith"

Visit "[Blind Faith](#)" on MotoLyrics.com

Of all of us here who'll be the first to understand
We've nothing to fear now
What's done is done you can't deny
That this will never change now you're satisfied

CHORUS:

Blind faith leading us all, blind faith leading us all

Someone must find the reason for this shame
No one cares we're running out of time
You left me here to die in the cold or build a life from
the dust

Too many hopes left unfulfilled so spread the ashes of
life

What is a man when there's not one to live for
I'm taking now what you couldn't take before
As the world fades away I've only one regret
I had to live to see this altered face

CHORUS

Now the cold is filling my heart
As I meet my own destiny

CHORUS
