Wait and fight
You never threatened to stop breathing countless times
When it wouldn't make a sound
Baby eyes
The whole thing is a fading senseless blur
Concern
But I'm letting go of her

I don't know why it is
Isn't it obvious to me?
Sympathy
I'm sure that after this
You can feel anything at all
Resembling

All her might
Was it the force behind the family bound in time
Keep the bottle down
To our surprise
The suspect you had discipline or nerve to convert
I just didnt think it would

For what we give to this
Challeneges persist
Battles we must fight
For what we give to this
Promise to resist
I stand with all your might
