i'm the one you've been hanging 'round
just stop hearing any sound
found you face down on the ground
found a friend never could be found
i've been waiting around
systems failing now
on your honor so i hear
it's never been your fault you swear
is the union based on fear?
tenement of tears
i've been waiting
systems failing
walking on a wire on the ground
is this all your world tonight?
is this all your world tonight?
have to tell a lie
to avoid a brutal fight
i've been waiting
systems failing
walking on a wire on the ground
