I can't take the pressure of relationships.
My broken heart
Won't let me commit.
My broken heart it makes me smile
defining my growth
Loving all the while
pick it up!
Cuz I've collected all the pieces
I got my dog
Who gives a fuck what she says?
Cuz loyalty is such a rare thing
But Louie Dog is breaking out the bleach.
You're my best friend
Louie Dog Come back to me.
Remember when we met
and you were afraid
because a human hand
introduced you to the pain
Don't give up
I screamed and shouted
thats when I knew I gotta do something about it
and I brought you home.
