R: x2

Don't look back  
I don't want u to see  
All this tears  
Just walk away from me  
I'm ashamed  
Crying naked in the rain

Oh no don't say u don't wanna go  
Don't lie i know this is the last goodbye  
Oh no don't tell me you're sorry now  
Cold rain will wash away the pain  
(the rain...the rain...the rain...)

Don't look back  
I don't want u to see  
All this tears  
Just walk away from me  
I'm ashamed  
Crying naked in the rain

Oh no don't say u don't wanna go  
Don't lie i know this is the last goodbye  
Oh no don't tell me you're sorry now  
Cold rain will wash away the pain  
(the rain...the rain...the rain...)

Don't look back  
I don't want u to see  
All this tears  
Just walk away from me  
I'm ashamed  
Crying naked in the rain
