Look at me now  
What have you done?  
I'm hiding from the sun  
Away from this world,  
Heartless and cold  
The story of my life untold.

As my dream is getting over  
Loneliness is taking me to  
Places that I've never been before  
Do you remember  
How it used to be  
The night of December  
..it was you and me.

Ref: Look at me now

Away from this world, heartless and cold  
The story of my life untold.

As my dream is getting over  
Loneliness is taking me to  
Places that I've never been before  
Do you remember  
How it used to be  
The night of December  
it was you and me
