"Hot"

Put some music, light my fire
Burning dreams, invite desire
Just a pain, love will simply blow you away
Shiny eyes, reveal your temper
You're so hot and yet so tender
Yes is right, fall, falling in love tonight.

Refren(x3):

I'm feeling so hot now
Sun's never burn like this before
Hot now,
Looks like we're begging for some more
Make it so, you're making me whole.
I'm feeling so hot now
Moon's never shone like this before
Hot now,
Looks like we're crawling on the floor.
Make it so, you're making me whole.
