"Oh La La"

I've been searching all around the world
Always looking for my special girl
On your lips I find the sweetest thing
I'm gonna kiss you in a million ways
Refren:
Oh, don't want no Angelina, no Britney or Christina,
'cause all I want is you la la...
Oh, I'll be no Casanova with Ana Kournikova,
'cause all I want is you la la.../Hit me

I feel the fire burning in your eyes
A magic potion got us hypnotised
I'm so freacky for your afterglow
Lift me up where we're in danger zone

Bridge: Tonight we're gonna shake it down
Down down down down down
Tonight we're gonna move Ãt round
Round round round round round

Refren x3
