She beckons with the lick of her lips  
The curves of this girls' wave of the hips  
Pulling me in tempting me with sin

Crazy she's making me spin out of control  
Crazy she makes me feel like my head is going to  
explode (rif)  
Can't stop thinking about being alone with you  
Always searching for brands new thrills  
In over my head with time to kill

(Rif)

Hold me in your arms  
Make me believe I'm superman  
Shelter me keep safe from harm  
Promise me this feeling will go on and on

Never forgive never forget  
(2x)  
Never look back never regret
