This guy attacked me
But said I blew his mind
We became friends in good time
He said play a fat beat
And don't be shy
You'd be surprised what you'd find
This ain't no compliment
It's justice you will see
Now just take it away baby
I feel a presence I don't know
And the mystic wind is blowin'
Dope vibe mood... (2x)
Now if you trust me
I won't tell you what to do,
But I'll put this mood into you
And if you must see proof
Your judgement is the best, oh yeah
Just put this mood to the test
This ain't no compliment
It's justice you will see
Take the guitar and play yeah
I can see my tube amp glow
I can feel the music flowing
When the moon's in phase
You catch a unique vibe
Your guitars takes us for a ride
When your lucky stars
Are singing from above
We feel power of love
This ain't no compliment
It's justice you will see
Now just take it away baby...
