Bailan, Bailan  
Why don't we try to eliminate hate, hate, hate  
We are one people, oh mama  
A planetary nation, oh mama  
Sharing the abundance for the greater need  
Try to put us down, to screw us in the ground  
But it's not how we want to be  
Try to shut us out, to lose in a crowd  
But it's not I reality  
Feeling high  
Why don't we live in joy and happiness  
And we try to forget the rest  
Living on the edge  
Can't take my inner piece  
Politician, industry, television, can you see  
Who is in control we must break free
