I'm not a man  
I'm God's only son  
Humanity is sick  
And work needs to be done  
If you want to follow me  
Surrender yourself  
I will make you free  
Some people think they always know what's going on  
Can never admit they said something wrong  
Then one day they are exposed  
They lose control, they let it all explodes  
So it was decreed  
By the lawmakers supreme  
Bring them to their knees  
Set them under age  
We'll stand our ground  
And fight for what we think is right  
And we ain't gonna play by your rules  
Or obey your laws  
If you want to, you can come and get us  
But you'd better be ready  
Cuz we'll fight and we'll never surrender  
And we're ready to die  
And we're going to burn everything to the ground
