That's why I love you now,  
That's why I love you more  
That's why I love you

You, came in, when I was down and out  
Love for real, You never had a doubt  
Held, me high, up on a pedestal  
And never let me fall

That's why I love the way you don't  
Leave me when I'm falling down,  
You don't  
That's why I love the way you don't  
Leave me when I'm calling you,  
You don't

When, it's time, to lay it on the line  
You were there, You never waste my time  
You, don't hear, what other people say  
You're always on my mind

(CHORUS)

Love me like you want me to love you, I think you  
should x8

(CHORUS)

That's why I love the way you don't
