I know youâ€™ve been, hurt a million times before  
But I wonâ€™t take you there cos  
Iâ€™m in your shoes  
Come on baby face, give me just a little smile  
It doesnâ€™t cost a thing, but I know what it is worth

I have been, looking for love these days  
I know that you have been doing the same  
The satellites above, showed me love in your direction  
I have been driving round in circles  
And now I got to find you

And Iâ€™ve been looking for you all night  
Youâ€™re the one, whose gonna make me feel alright  
And I think, I think Iâ€™m contemplating true love  
Do you know, Iâ€™ll be the one to make the sun come up

Now i need, You and you know its true  
From this day on I cannot be without you  
It may be absurd, but I think I could be falling  
I got a feeling that you are the one  
And I want to be around you

(CHORUS)

I know youâ€™ve been, hurt a million times before  
But I wonâ€™t take you there cos  
Iâ€™m in your shoes  
Come on baby face, give me just a little smile  
It doesnâ€™t cost a thing but I know what it is worth

(CHORUS) x 2

Cause this is true love, oh baby true love
