

Great Transparency "Run For It"

Visit "[Run For It](#)" on MotoLyrics.com

All of this within our reach,
We've got to teach ourselves,
To run for it run for it,
And never look back,
Except to remember all our smiles,
It was worth the while,

Go on go on go on go on,
And tell me that everything is alright,
I will I will I will I will
I will stand by you tonight

So tell me how this all came about
And I oh I will make sure you know how
Where does t say the heroes die when they lost
I know right now that we've won

Run for it run for it run

And here we are hand in hand
Hoping for and waiting for
Everything that we love

All of this within our reach
We've got to teach ourselves
To run for it run for it
And never look back
Except to remember all our smiles
