Don't try to keep in touch with my friends
They may act nice but they just pretend
They back me up until the bitter end
So don't be so friendly with my friends

Don't call, don't reminisce
Cause you're the one who started this
Don't write, and don't insist
I promise you, you're not missed

You're just a liar, a snitch
That's really all that you are to me
I gave you all I had
What I got back was only bad
Better get out and don't look back again

You know just what you did
You know just what you did
You know just what you did

You're gonna have to find a new crowd
Better turn around cause you're not allowed
Don't try to bother cause you don't know how
Just leave my life and do it right now

Don't call, don't reminisce
Cause you're the one who started this
Don't write, and don't insist
I promise you, you're not missed

You're just a liar, a snitch
That's really all that you are to me
I gave you all I had
What I got back was only bad
Better get out and don't look back again

You know just what you did
You know just what you did
You know just what you did
You know just what you did

I told all my secrets
You gave what I gave to someone else
How could you be sharing my secrets
You gave it away with no regrets

I told all my secrets
You gave what I gave to someone else
How could you be sharing my secrets

You gave it away with no regrets-grets
With no regrets-grets
With no regrets-grets
With no regrets-grets

It was us too, could I trust you?
I gave you everything I had
Just get out and don't look back again

(You know just what you did)

You're just a liar, a snitch
That's really all that you are to me
I gave you all I had
What I got back was only bad
Better get out and don't look back again

(You know just what you did)

You know just what you did
You know just what you did
You know just what you did
