And just like that, you were out of my life and I was left behind alone.

At first I cried, but then I got mad.

Oh, how I wish I would have known.

Didn't know that it could hurt so bad

// Why you wanna make me suffer?

Here we go again.

I really thought that I was tougher and I thought that I could take the pain.

So why you wanna make me suffer?

I'll never be the same.

Someone tell me, please, where I went wrong //

Through the good and bad I was told that I, that I could put my trust in you. Got me all confused and my feelings failed me so now I don't know what to do.

Didn't know that this could hurt so bad

// CHORUS //

I try to take it easy and just go with the flow.

But things keep getting worse, getting out of control.

I suffer as I cross the days off one by one.

But I hope there's a reason for it all.

Didn't that this could hurt so bad.

It hurts so bad.

Someone show me how to quit and just let go.

I gotta get a break sit back and watch it grow.

I need to close my eyes and sense the vibrations.

Help me rid myself of the frustrations

// CHORUS //

Why you wanna make me suffer.

I gotta get a break sit back and watch it grow.

I really thought that I was tougher.

Someone show me how to quit and just let go.
