You don't have to say it
I know how you feel
You don't need to speak a word to reveal
When you love this way it's
Easy to love what you need (when you need)

So baby...
Close the door
Turn the lights off hold me like you never did before
Closer than we've ever been
With words unspoken
I cry out to you and you answer me
Silently...

In the silence of the night
Your heartbeat speaks to mine
In the silence of the night
I hear... love loud and clear

When you touch you tell me
You'll never let go
With my eyes I beg you to take full control
Baby in this moment
I understand you without a sound
Without a doubt

So baby...
Close the door
Turn the lights off hold me like you never did before
Closer than we've ever been
With words unspoken
I cry out to you and you answer me
Silently...

In the silence of the night
Your heartbeat speaks to mine
In the silence of the night
I hear... love loud and clear

Touch me, feel me, quietly
Don't speak

Just love me now baby
Now let's be silent
Time to give and take love
Let's make loooove

In the silence of the night
Your heartbeat speaks to mine
In the silence of the night
I hear... love loud and clear

In the silence of the night
Your heartbeat speaks to mine
In the silence of the night
I hear... love loud and clear
