You got a rocket in your pocket
Why can you just let me be
Have you no eyes in your sockets
Or are you just pleased to see me
As you all know
You better take care
Treat me with respect
Because love is rare

As you all know
You better beware
Treat me with respect
Because love is rare
Love is rare

I got so holy it hurt
Why was I blessed with this rage
You rub my face in the dirt
And there's a time to turn a new page

As you all know
You better take care
Treat me with respect
Because love is rare

As you all know
(As you all know)
You better beware
(You better beware)
Treat me with respect
Because love is rare

As you all know
You better take care
Treat me with respect
Because love is rare

As you all know
You better beware
Treat me with respect
Because love is rare

As you all know
You better take care
Just take care
Treat me with respect
Because
Love is rare

As you all know
You better beware
You better beware
Treat me with respect
Because
Love is rare

As you all know
You better take care
Treat me with respect
Because

As you all know
You better beware
Treat me with respect
Because

As you all know
You better take care
Treat me with respect
Because

As you all know
Don't go rubbin' my face in the dirt
You better beware
Treat me with respect
Because love is rare

Let it go

I have enough of all this tension
Don't you know I'm worried sick
Now i'm in the right dimension
No escape who does the trick

I hear my heart is on rotation
'Cause all the people take their cut
And I can better stand a minute
So I just keep my wide eyes shut

Let it go before it kills you
Let it fall and the fade away
Let's have fun and do what thrills you
Please don't waste another day

Why do I cause myself this trouble
You know around me things are good
If you could look into the future
Maybe I'll be understood

Let it go before it kills you
Let it fall and fade away
Let it go let it fall let it fade away
Let's have fun and do what thrills you
Please don't waste another day

You know I love you more than money
You know I need you more than fame
And I'll be there for the children
And I will never pass the blame

Let it go before it kills you
Let it fall and the fade away
Let it go let it fall let it fade away
Let's have fun and do what thrills you
Please don't waste another day

Sample
"Anyway, it's hot here.
It's hot, that's all I've got to say.
Floor is hot.
The sugarcanes(?)... hot.
There is bugs.
And muggers.
And... fourteen year old kids on bikes with guns.
Come on over sometime!"
