Angels
Smiling on my happiness
Danger
'Cause the scene is still a mess
(We can all be blast)
Don't stop just yet
We' ve got the world looking in
Our window
Don't stop just yet
We' ve got the world looking in
Our window
Spacecraft
Spinning slowly out of sight
Peace man
Keep on chasing the wrong guy
(We'll see eye to eye)
Don't stop just yet
We' ve got the world looking in
Our window
Don't stop just yet
We' ve got the world looking in
Our window
We' ve got the world looking in
Our window
We' ve got the world looking in
Our window
Don't stop just yet
We' ve got the world looking in
Our window
Don't stop just yet
We' ve got the world looking in
Our window
