It's da kid MBP, and I'm rappin about my girl, her name
is katrina, and she's my biggest thrill, I love her so
much, and we hang out all the time, from da skatepark
to home, no matter where we roam, we always have fun
even under da sun, talkin and dreamin, night "n"
day, cause we have no need to worry, cause it's
ok, together forever, we need no other, cause we got
each other, and that makes us ok.

Who is she, you know she's my chick, always by my
side, you can call her my sidekick, baby don't you know,
who your with, your with da MBP, so you'll never get
dissed.

Baby I miss you so much, so lets get back together and
learn how to speak dutch, I'll be there for you
forever, from death to us part, and I'll love you
forever, even from da bottom of my heart, even though I
hang out with courtney more than i do with you, your da
only one for me even when I have the flu.

Who is she, you know she's my chick, always by my
side, you can call her my sidekick, baby don't you
know, who your with, your with da MBP, so you'll never
get dissed
