Golgotha
"The Proverb"

Every being has got a path to follow
Every people has got a way to look for
Every person has got a target to culminate
That are plenty of obstacles
Obstacles to toss up in a irremediable way
And so going
On overcoming the cruel trip of your existence
Feeding it with
Wisdom and maturity to harden yourself
In the presence of absurd problems
That only look for the destruction
Of the ignorant and inexperienced people

Go on being
Go on being
Go on being
Look for your culmination
If you don't get your purpose
Then is not correct, so look for it again

Obstacles to toss up
Will try to smash people with a weak moral
And they catch between their warm
And deceptive arms
People, who aren't prepared to follow
Their own way
And let them to fall in their
Pacific conspiration of lies

Everybody needs fighting for something
And if you are afraid of this
Them your solution is not turning your eyes
And going on without orientation
Go on being
Go on being
Go on being
Look for your culmination
If you don't get your purpose
Then is not correct, so look for it again
Again

The solution is to keep

Your mind cool
And to analyse
You internal victories and defeats
These that make us get older
In a wise and sensible way
Keeping your should dreamy
And anaesthetising our feelings
Just to avoid they would make us mistrust
Just in the moment we would have to choose our state
Because only
Like this
We will
Get to reach
We will
Get to reach
Get to reach
Our incertain future

Our incertain future

Our incertain future
Being prepared
To bring it
Face to face
Face to face
Face to face
Face to face
Face to face to face to face to face
Face to face
Face
To face

Go on being
Go on being
Go on being
Look for your culmination
If you don't get your purpose
Then is not correct, so look for it again
