and from here i knew
that this wasn't a dream
i felt the good pain
a kiss as it seems
time took a break
a moment in its place
paused for love
a mind without a trace

and i
i fell apart
i fell down
i forgot how to breathe
and if i could see you
i'd take you away far from here
just to show you my feelings for you
and i would tell you
thats its killing me
its burning me
just to show you what i feel

silenced by fear
by childish nightmare
it holds me back
truth is my dare
and its stabbing me
but missing the heart
pain won't kill
but it'll rip me apart

and i
i fell apart
i fell down
i forgot how to breathe
and if i could see you
i'd take you away far from here
just to show you my feelings for you
and i would tell you
thats its killing me
its burning me
just to show you what i feel

emotions wrote this song
you are to blame
infatuations are strong
your kiss gave me pain

i forgot how to breathe
and if i could see you
i'd take you away far from here
just to show you my feelings for you
and i would tell you
thats its killing me
its burning me
just to show you what i feel
