All my frendz
They never take it easy
And it's keeping me uplaid
We'll fox into the city
Distracted by all my frendz

It's driving me insane
Somebody's gonna break me
Is anybody's listening
To what I have to say about all my frendz

We all mess up
They all forget
Yeah, that's what's up

Ouh

Yeah, I wasn't trying
To find a way to get up
I was just lying
On my back, I look up
All of the sky
If I'm trying
Is my ho-ho-ho-ho-ohohoh-home

I wasn't crying
About how we've set up
I am just dying admiring all the fuck ups
All of this lying
Night after night and noo
(Night afternight, after night)

So call your frendz

We'll get drunk on the week days
No work and all play
We're tearing down the cityy

Distracted by all yur frendz
Boring, brody monday
(We all mess up)

Always on the same things
(They all forget)
Is anybody's listening to what I have to say
(Yeah, that's what's up)

About all my frendz
We all mess up
They all forget
Yeah, that's what's up

I wasn't trying
To find a way to get up
I was just lying
On my back, I look up
All of the sky
If I'm trying
Is my ho-ho-ho-ho-ohohoh-home

I wasn't crying
About how we've set up
I am just dying admiring all the fuck ups
All of this lying
Night after night and noo
(Night afternight, after night)

So call your frendz
