April I'm gone, now if only  
Keep moving on but not so slowly  
I found my love but I'm not sure you'll be the first to  
know  
You might have the news that I'm so busy  
You must know the truth yeah you're so pretty  
I do love you and please be sure  
I'll wish until it's true  
I'll sing this just for you

Hey lover hey lover  
This is more than a crush  
Hey lover hey lover  
This is more than enough  
Hey lover hey lover  
Yeah I hope you feel it too

I stand alone, sit back just watch me  
Resound the notes yeah play them softly  
Lend me you ear and finally  
I'll sing this just for you
