Fueled By American Hatred
nurtured on venom and piss
a constant journey in murder
no mercy for the women and kids
the Dead they grow in numbers
and soar the infested skies
desecrating the so called precious
and making nuns into our wives

Devil War ship

We will Kill your young

No respect for the followers
the mindless who believe
the children of pop culture
the spawn of the disease

hated by the population
reject what are fed
signal out the putrid clones
slaughter the fuckin trend

Devil War Ship
