Slash your own throat
carve out your jugular
with rusty nails
hammer it to a cross

you give yourself
in return you get nothing
in the name of Satan
bash in your own skull
Descendents of Murder
its all in the blood
Wheel of the Serpents
breast fed by whores

Snug of the rope
the daily ritual
surrounded by humans
you fuckin despise

day dreams of rot
it fills your graveyard
makes up the soil
in your backyard

Descendents of Murder
its all in the blood
Wheel of the Serpents
breast fed by whores

Hail unholy murder
tonight I play god..
Open the stomach dig inside
question he who cures the blind

Suffer.....
Poison your fuckin world
