She used to be some, somebody's baby
Used to be some, somebody's girl
She used to be some, somebody's lady
She used to be some, somebody's world
And before you start actin' like the king of the mountain
You'd better hear one thing, Jack

Somebody wants her back
(Somebody wants her)
Yeah, somebody wants her back
(Somebody really wants her)
Uh huh, somebody wants her back
(Somebody wants her back)
Yeah, somebody wants her back

She used to be some, somebody's baby
Somebody's girl
She used to be some, somebody's lady
She used to be some, somebody's world
And before you start actin' like the king of the mountain
You'd better hear one thing, Jack

Somebody wants her back
(Somebody wants her)
Uh huh, somebody wants her back
(Somebody really wants her)
Yeah yeah, somebody wants her back
(Somebody wants her back)
Uh huh, somebody wants her back

You came in like a thief in the night
And stole her right out of my hands
I didn't even see you comin' until you were gone

I had it figured right down to the letter
But you never figured into my plans
But everything's a-gonna be different from now on

She used to be some, somebody's baby
Somebody's girl
She used to be some, somebody's lady
She used to be some, somebody's world

And before you start actin' like the king of the mountain
You'd better hear one thing, Jack

Somebody wants her back
(Somebody wants her)
Uh huh, somebody wants her back
(Somebody really wants her)
Yeah yeah, somebody wants her back
(Somebody wants her back)
Uh huh, somebody wants her back

Better not be spendin' a lot o' your time hangin' out
downtown
Better be takin' care of business back at home

You better start lookin' over your shoulder
'Cause I might be gainin' ground
'Cause I'm gonna get right back what was my own, my
own

'Cause she used to be some, somebody's baby
Somebody's girl
She used to be some, somebody's lady
She used to be some, somebody's world
And before you start actin' like the king of the mountain
You'd better hear one thing, Jack

Somebody wants her back
(Somebody wants her)
Uh huh, somebody wants her back
(Somebody really wants her)
Somebody wants her back
(Somebody wants her back)
Somebody wants her back
(Somebody wants her)

Oh yeah, somebody wants her back
(Somebody really wants her)
Uh huh, somebody wants her back
(Somebody really wants her)
Yeah yeah, somebody wants her back
(Somebody wants her back)
Uh huh, somebody wants her back
