I can't see You, but I know You in light
I can't touch You, but I feel you in light
I can't hear You, but I sense you in light

You are the micro macro being that is forever seen
You are the friend to every seraphim and sanobim
You are the owl it seems to coax us to the tree of
dreams

Whoo - Whoo - Whoo - Whoo 9x

Light of Lights - I love You
Light of Lights - I need You
Light of Lights - I call You
Light of Lights - When I'm in need

Ah, Ah, Ah
Ah, Ah, Ah

You are the star at night That sees us through the silent
night
You are the three in one in me for all eternity
You are the force of all Life's flow in which all cells do
grow

Ah, Ah, Ah,

I can't see You, but I know You in light
I can't touch you, but I feel you in light
I can't hear You, but I sense you in light

You are the micro macro being that is forever seen
You are the friend to every seraphim and sanobim
You are the owl it seems to coax us to the tree of
dreams

Whoo - Whoo - Whoo
