Listen, listen lovely Indian maiden
To the birds sing, the frogs ring,
The crickets join the night song,
They love you, I love you too,
Tenache, Tenache

Your black hair shines in the night
The moonlight shines in your eyes
And bounces to energize.
My being is seeing you.

I found you, you found me
We were one, we were free
Then I lost you, you lost me
I searched for you, you searched for me
I'll find you, you'll find me
We'll be free -- again, -- my friend

Eeya - eeya - eeya - ya ya ya ya ya

Remember that high mountain
Up where eagles fly,
You were laughing, and crying,
We were so happy.
You will be -- again, -- my friend.

Listen, listen lovely Indian maiden
To the birds sing, the frogs ring,
The crickets join the night song,
They love you, I love you too,
Tenache, Tenache

Eeya -- eeya -- eeya -- ya, ya, ya, ya, ya,
Ha - Ee - Ya - Ha - Ee - Ya
