We had a bike behind the garden shed
Dust off the cobwebs
And I pushed on

I had to get across two major roads
Yeah, that's pretty big
For a three year old

Point the bike towards my grandma's place
The surprise on her face
Was astounding

Although they wondered where my mother was
Probably because
I was alone when they found me
All Nothing
We had a sea shell on the bathroom bench
My parents found it when
We were in Queensland

And when I knocked it down with my bath towel
The deafening sound
Made them both mad

I couldn't look at them in the eye
Cos they'd see me cry
I was so scared

Instead I ran behind the garden shed
Dust off those cobwebs
And got out of there

It's all nothing now
