I think I must be crazy
to feel this way.
I'm so lazy,
I sleep all day.
I'm too stupid to understand,
why did it happen?
I wear it like a brand

I'm straight outta luck.
Why can't this all go away?
Straight outta luck,
deal with it everyday.

Guess what?
It happened all over again.
My luck is rising,
but soon it will descend,
Will I ever be happy?
Will I ever know?
The weight of my situation leads towards "no".

I'm straight outta luck.
Why can't this all go away?
Straight outta luck,
deal with it everyday.

(1,2,3)

'cause I'm straight outta luck.
Why can't this all go away?
Straight outta luck,
deal with it everyday.

Straight outta luck.
Straight outta luck.
Straight outta luck.
Straight outta luck.
I'm straight outta luck.
