Now I am on the other side of the world now,  
don't know how I got here and I don't know my way  
home..but something flipped...and now I'm on the  
other side of the world now, it's so much HOTTER  
and BRIGHTER and the sun seems so much  
YOUNGER. Maybe the ice caps are melting,  
I think I can feel that as much  
as the earth that's sinking below  
me. Everything will carry on  
without me, whatever the hell  
that means...

AHHHHHHHHHHHHHHHH!

i'm scared now, so I go up and sit on  
a mountains edge, and ask the stars and  
the sky and the sand what I should do...  
and they'll say, "keep breathing",  
And you already know how to do that  
KEEP BREATHING KEEP BREATHING  
KEEP BREATHING it's all you can do! cause  
something FLIPPED, and now we're on the  
other side of the world now. I don't where I  
am, I don't know what to do, I don't know  
what is going on...but deep in my heart,  
I do believe, that home is where the heart is...
